March 23, 2013 (Toronto, ON) – The 56th Annual CSC Awards honored Kamal Derkaoui csc with Best Theatrical Feature Cinematography for Minds Eye Entertainment’s *THE TALL MAN*.

The action drama, starring Jessica Biel centers on the northwestern town of Cold Rock. One by one the town’s children are disappearing. They leave behind neither clues nor credible witnesses, but instead a legend, a story cloaked in shadows passed from neighbor to neighbor...And with it, a building sense of terror which threatens to devour what’s left of the community itself.

The CSC Annual Awards Gala celebrates the art of cinematography and the pinnacle of professionalism through outstanding skill and creativity. The Canadian Society of Cinematographers has grown with the country's film and television industry, and continues to uphold the objectives for which the non-profit organization was founded in 1957. The purpose of the CSC is to promote the art and craft of cinematography and to provide tangible recognition of the common bonds that link film and video professionals, from the aspiring student and camera assistant to the news veteran and senior director of photography.
